SKILLS

JavaScript, Typescript, React, Redux, Java, Spring, Node, Express, AWS, REST API, PostgreSQL, HTML, CSS, Git

WORK EXPERIENCE

Pariveda Solutions, San Francisco CA

Jul 2021 – Present

Software Engineer

- Implemented full-stack features and design development in Java, SpringBoot, React, and JavaScript for a chatbot technology that uses both natural language processing and predefined interaction flows to empower hotels by providing troubleshoot options and live support
- Ensure proper implementation of internationalization, localization, and translation support for over 25 languages and countries
- Defined and integrated a platform that enables teams across the ecosystem to build their own technology on top of the chatbot - ultimately reducing the cost of support by up to 30%, and also reducing the number of hotels that need to wait by up to 70%

Solve The Wordle {Personal Project} [GitHub](#) | [Demo](#)

A full-stack web application for puzzle lovers to help them solve daily wordle from NY Times

- Built responsive front-end with React to make a user-friendly interface for all users
- Designed the web application to resemble the official Wordle website
