TECHNICAL PROJECT EXPERIENCE

GleamsIS

[GITHUB](#) | [DEMO](#)

A full-stack web application built for educators and learners

- Used Node.js for making three RESTful API endpoints and designed the relational database with one-to-one relationship between tables
- Implemented mobile-first approach and used React for the frontend to make a simple intuitive interface for all users

Technologies: React, Node, Express, PostgreSQL, CSS, Jest, Mocha, Heroku, Vercel

Find My Activity

[GITHUB](#) | [DEMO](#)

A full-stack web application for work-from-home parents to find fun and educational activities for kids

- Reduced over 50% of the page load time using React, provided a simple and smooth user experience
- Designed relational database using PostgreSQL and implemented RESTful protocols for API design, significantly improved data flow

Technologies: React, Node, Express, PostgreSQL, CSS, Jest, Mocha, Heroku, Vercel

Movies and Books

[GITHUB](#) | [DEMO](#)

A front-end web application that makes searches for your favorite books and movies at the same time by calling two different API endpoints

- Built a fully-functional mobile-friendly website using HTML, CSS and JavaScript
- Integrated data and process from multiple APIs for interactive web content

Technologies: jQuery, HTML5, CSS3, JavaScript, API

WORK EXPERIENCE

Leadership Public Schools Oakland R&D, Oakland, CA

Aug 2018 – Jun 2020

Statistics Teacher and Testing Coordinator

- Delivered Statistics courses in collaboration with the College of Alameda and achieved above 96% success rate
- Analyzed data and equipped teachers in areas of data usage, creating action plans which resulted in an increase of test participation rate to at least 90%

Bay Area Technology School, Oakland, CA

Oct 2011 – Jul 2018

Academics Coordinator and Mathematics and Computer Science Teacher

- Collaborated with the Instructional Team and increased academic success in Math by 23% and in English by 18%
- Taught programming courses focused on HTML, CSS, JavaScript, Java, data structures, algorithms, programming design, computer systems and networks

VOLUNTEER EXPERIENCE

Banana App by Be Good Project

[APP STORE](#)

- Developed the registration page using React and CSS, increased the sign-up process by 35%

Mentor for Women Who Code San Francisco

- Led study groups with ten to twenty people on topics such as JavaScript and React
